🎓 Education

Information Systems Engineer | Universidad de Sonora
2019-08 - 20XX
Hermosillo, Sonora, México

💼 Experience

SQL | Bookstore - This project was developed with a team for a class of databases II, we developed a system for a library, it includes all the services for a point of sell.
Java | Airport graphs app - Java practice for graphs for my fundamentals of programming III class. It works finding the more close way from one airport to another making scales if it is needed.
Python | - A python code for a CRUD that I make for my developing IV class in the university. It works with MySQL.
